

FieldEdge + **intuit quickbooks**

The Superior Integration

What is a QuickBooks Integration?

Not all QuickBooks integrations are created equal. There are two major types – **delayed sync** and **real-time**.

Both talk to your service management software, but choosing the wrong one could have major impacts on your business.

Why Does It Matter To You?

intuit quickbooks + **FieldEdge** REAL-TIME INTEGRATION

- **Save 20+ hours** in the office entering information once in one place
- QuickBooks **accurately reflects** financial transactions in real-time
- Accurately track timesheets and **pay your employees accordingly**
- Accurate inventory means the **job gets done the first time**

intuit quickbooks + **Other Software** DELAYED SYNC INTEGRATION

- **Double entry** leads to more errors and wasted time
- **Mismatched data** in QuickBooks and unmatched invoices
- Open work orders create **inaccurate timesheets**
- Inventory count lag causes **stockouts** and costly revisits to customers

"With our real-time integration, you will always have the most up-to-date information to make important decisions."

Eric Rausin
VP of Product, FieldEdge

Why FieldEdge?

FieldEdge is a QuickBooks platinum partner and invented the first true integration between QuickBooks and service management software back in 1998. We have the experience and the expertise to provide you with the best QuickBooks integration possible to have your business running smoothly all the time!

"Contractors need to make decisions on the fly with accurate info. With their QuickBooks integration, FieldEdge has shown they truly know how contractors do business."

- **Ron Smith** | HVAC Coach and Industry Pioneer
