

NOVEMBER 2017

Leo Murray
President
AMPRO

“AMPRO relies on ESC heavily, in all aspects of our business. They (ESC) have been an important partner through many years and we credit them tremendously with our continued success. AMPRO couldn't provide the high-level of service is does without a system as well-designed and executed as ESC. Bottom Line.”

AMPRO

Premier contractor for business and commercial signage and lighting, serving clients throughout the state of Florida

AMPRO holds state certified lighting, sign, and electrical licenses

AMPRO has been serving the commercial marketplace in the state of Florida since 2006

How Has ESC Helped?

Support & Professional Services

- Ensures a problem-free technical environment
- The support ESC provided during Hurricane Irma was second-to-none. AMPRO was up and running during the worst of the storm

Going Paperless

- Emergency calls are easily integrated into the daily schedule and show up on the tech's mobile device
- Dispatch notes are sent back to the office instantly, freeing up telephone lines for urgent customer calls

Communications with Technicians

- ESC allows AMPRO service and project managers to communicate job information with techs and clients seamlessly, reducing double entry and saving time in the office
