Customer Gifts Made Easy

## Automated follow-up that feels relational

Customer follow-up is critical. It's the only way to retain customers and achieve long-term business growth. But contractors are busy and most struggle to find their groove in this area.

Yet what if customer follow-up could be easy and consistent? What if it was nearly automated for you, while feeling incredibly personal and relational to your customers? What if it could drive loyalty and lifelong customer relationships? There is an answer. And it's pretty sweet.

## 30+ Freshly-baked gift packages

For twenty years, To Your Success has been the residential contractor's trusted partner for customer wow factor. With To Your Success, a delicious "Thank You" gift of freshly baked cookies is drop-shipped to your customer's door, creating a memorable, relationship-building moment that cultivates loyalty.

Our legendary cookies are baked early in the morning, then carefully hand-packed and vacuum sealed, before being delivered to your customer within 1-3 days. Gifts can be branded with your company logo as a reminder of your desire for an ongoing, strong relationship. When customers feel valued, they respond with loyalty. It's a cycle of appreciation that grows stronger with every exchange.
